Subject: From Clark Kelso: procurement survey

This email is being sent to all California IT Leaders on behalf of the State CIO, Clark Kelso.

Good afternoon, IT Leaders!

The Department of General Services (DGS), in conjunction with the Information Technology Council's Acquisition Committee, has developed a customer survey on the Strategically Sourced Information Technology (IT) Contracts (formally known as the California Strategic Sourcing Initiative or CSSI initiative). The purpose of this survey is to solicit responses from the users of the contracts in order to measure the overall success of the State's Strategic Sourcing efforts. Your participation in this survey is important as it will provide valuable information that will ensure the future improvement of the Strategically Sourced Contracts. This research effort will focus on administration, small business/disabled veteran business enterprise goals, selection of goods and services available on the contract(s), savings and supplier performance.

I want to thank you for taking the time to complete this customer survey on the Strategically Sourced IT Contracts. Please follow the link below to access the survey. If you have any questions or need clarification regarding the survey, you may contact Alex Chin at alex.chin@dgs.ca.gov or he can be reached at (916) 375-4526. Please complete the survey by December 4, 2007.
