

vision

# ITMA XV Project

# Overview

- State's IT Challenges
- ITMA XV's Project
- Strategic Alignment

vision

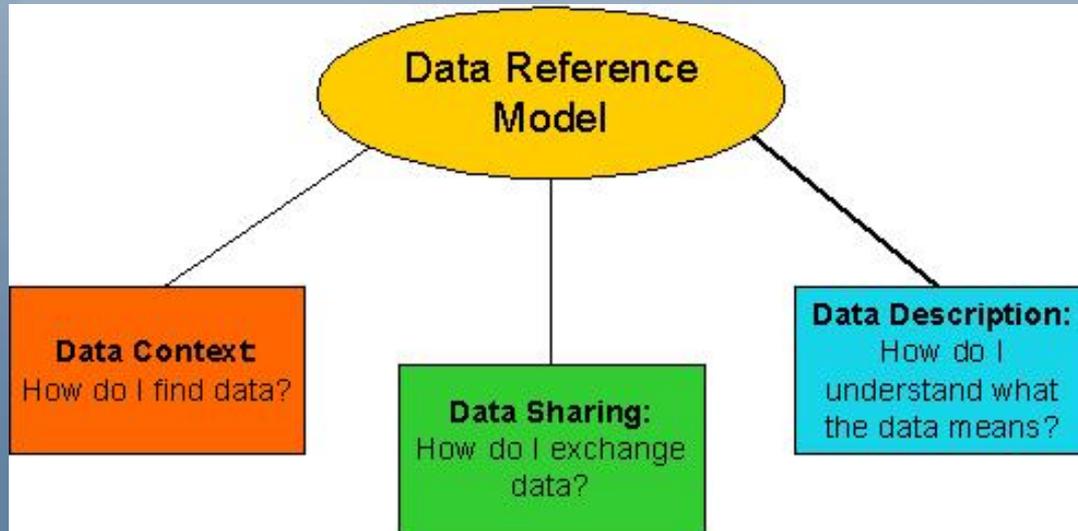

# State's IT Challenges

- Adapting to the evolution of technology *while delivering value to the clients/business we support*
- Delivering services, products, and innovative solutions *in the most effective and efficient method*
- Aligning IT with the business *to accomplish enterprise objectives*

# ITMA XV's Project

- Create Data Reference Model
  - Focus on Specific Business Area
- Define Standardization criteria
- Define Governance model

# Why FI\$Cal?

- Statewide Impact - enterprise project
- Multiple Agencies- State Controllers Office, Department of Finance, State Treasurer's Office and Department of General Services
- Sustainability- used to define the relationship of the data between the agencies during the project and beyond.

# Strategic Partners

*“Working Together to Create California’s EA Vision”*
