

Project	Agency/Department	Category	Goal	Planned Cost	Objective
REAL ID	BT&H/Dept of Motor Vehicles	Licensing	Improve Access to Government Services	\$ 35,103,878.00	This project will enable the DMV to begin meeting the federal requirements of the Real ID Act. Specifically, the DMV will expand its current driver license (DL)/identification system name field and enhance its system testing capabilities by expanding the current DL system testing environment to mirror the changes to the production environment and increasing DL system test staffing to support the enhanced infrastructure. Additionally, the DMV will move appropriate business transactions to the Internet through the use of commercial-off-the-shelf web site infrastructure products combined with custom-developed web services.
Automated License Data System (ALDS)	Resources/Dept of Fish and Game	Licensing	Improve Access to Government Services	\$ 27,501,166.00	This project will provide an on-line relational database management system supporting point-of-sale terminals at 1,600 license agent locations, and the ability to purchase hunting and fishing licenses and permits by the public via the Internet. The system will facilitate the timely capture of license and permit revenues, provide an integrated information system supporting improved Department of Fish and Game (DFG) program management and customer service, and allow the DFG to meet federal and state mandates not possible under the current system.

iLicensing System	State & Consumer Svcs/Dept of Consumer Affairs-Regulatory Bds	Licensing	Improve Access to Government Services	\$ 14,763,862.00	This project will improve public service by providing a system for applicants and licensees to submit initial and renewal license applications and payments through the Internet, and to print receipts, request duplicate licenses, submit changes to licensee information, and obtain information on the status of their request. iLicensing will streamline and automate the DCA's licensing and cashiering processes, improve management information and reporting, and facilitate the coordination of licensing and enforcement activities by making more information accessible throughout the DCA.
Transportation Permits Management System 2000	BT&H/Dept of Transportation	Licensing	Improve Performance and Cost-Effectiveness of Infrastructure	\$ 14,593,000.00	This project will automate the department's permit process for safe trucking routes of oversized loads on state highways. The system will include: permit compliance, route checking, route and map generation, application tracking, permit delivery, fee determination, and credit card charging. TPMS includes the procurement of an Internet based COTS that the project vendor will modify.
Driver License/Identification Salesperson Contract	BT&H/Dept of Motor Vehicles	Licensing	Improve Performance and Cost-Effectiveness of Infrastructure	\$ 11,418,004.00	This project will select a vendor to continue driver license, identification, and salesperson card issuance, including the addition of various security components. The solution is expected to include technology to capture digital images of identity source documents in a transferable format, and to provide biometric matching capability of applicant prints and photos, and biometric logon for DMV employees who operate the equipment.

International Registration Plan System Replacement	BT&H/Dept of Motor Vehicles	Licensing	Improve Performance and Cost-Effectiveness of Infrastructure	\$ 11,110,141.00	This project will replace the DMV's existing obsolete computer system for processing International Registration Plan (IRP) registrations with a commercial off-the-shelf IRP software package. It will facilitate commercial vehicle registration and electronic payment and distribution of commercial vehicle registration fees among IRP member jurisdictions.
Electronic Exams Project (EEP)	BT&H/Dept of Real Estate	Licensing	Improve Access to Government Services	\$ 4,673,748.00	This project will replace the DRE's current on-site, manual, salesperson and broker real estate exam processes with new automated, electronic exam processes. This project will result in applicants receiving Real Estate licenses in less than 2 months instead of waiting 2.5 to 4 months. In addition, it will cost less to administer on-site exams.
Licensing and Compliance System Phase II -CABIN	BT&H/Dept of Alcoholic Beverage Control	Licensing	Improve Performance and Cost-Effectiveness of Infrastructure	\$ 4,363,154.00	This project will replace the existing California Alcoholic Beverage Information Network (CABIN) system with a COTS licensing and case management solution. The new COTS system will be modified by contractor staff to meet unique Department of Alcoholic Beverage Control (ABC) requirements. The CABIN system is obsolete and can no longer effectively support the ABC's licensing and enforcement activities.
