

Project	Agency/Department	Category	Goal	Planned Cost	Objective
Transportation Permits Management System 2000	BT&H/Dept of Transportation	Licensing	Improve Performance and Cost-Effectiveness of Infrastructure	\$14,593,000	This project will automate the department's permit process for safe trucking routes of oversized loads on state highways. The system will include: permit compliance, route checking, route and map generation, application tracking, permit delivery, fee determination, and credit card charging. TPMS includes the procurement of an Internet based COTS that the project vendor will modify.
Driver License/Identification Salesperson Contract	BT&H/Dept of Motor Vehicles	Licensing	Improve Performance and Cost-Effectiveness of Infrastructure	\$11,418,004	This project will select a vendor to continue driver license, identification, and salesperson card issuance, including the addition of various security components. The solution is expected to include technology to capture digital images of identity source documents in a transferable format, and to provide biometric matching capability of applicant prints and photos, and biometric logon for DMV employees who operate the equipment.
International Registration Plan System Replacement	BT&H/Dept of Motor Vehicles	Licensing	Improve Performance and Cost-Effectiveness of Infrastructure	\$11,110,141	This project will replace the DMV's existing obsolete computer system for processing International Registration Plan (IRP) registrations with a commercial off-the-shelf IRP software package. It will facilitate commercial vehicle registration and electronic payment and distribution of commercial vehicle registration fees among IRP member jurisdictions.

Licensing and Compliance System Phase II -CABIN	BT&H/Dept of Alcoholic Beverage Control	Licensing	Improve Performance and Cost-Effectiveness of Infrastructure	\$4,363,154	This project will replace the existing California Alcoholic Beverage Information Network (CABIN) system with a COTS licensing and case management solution. The new COTS system will be modified by contractor staff to meet unique Department of Alcoholic Beverage Control (ABC) requirements. The CABIN system is obsolete and can no longer effectively support the ABC's licensing and enforcement activities.
